tryZone joins the Scaled Agile Partner Network  
August 26th, 2020  
Copenhagen

We are proud to announce that tryZone has joined the Scaled Agile Partner Network as a Bronze Transformation Partner.

All four tryZone partners are Certified SAFe® Program Consultants (SPCs) with at least 15 years of experience with LEAN-agile product development.

We are looking forward to developing our services to our current and new customers and to offer training and certifications in various aspects of the SAFe environment. At tryZone we aim at delivering training that is innovative, involving, engaging and fun.

Dean Leffingwell, the creator of SAFe and co-founder of Scaled Agile, Inc says: *“Working with best-in-class partners like tryZone represents our commitment to helping software and systems-dependent enterprises improve time-to-market, quality, and employee engagement”. “By incorporating SAFe into their solution offering, tryZone is enabling the world’s largest organizations to become more Agile in the marketplace and more competitive in their industry.”*

SAFe is the global market leader in Enterprise Agility Frameworks helping organisations to handle the ever increasing challenges in building and delivering high quality services and products in the shortest possible time.

The companies in the global partner network help organisations in facilitating and accelerating their business results by implementing the Scaled Agile Framework® (SAFe®). The network has trained more than 45.000 people with the aim of helping organisations create better products, increase their employees job satisfaction and develop their business.

Scaled Agile is a member of “Pledge 1% corporate philanthropy and community service”.
